## DALLAS SHRINERS GETTING READY TO HANDLE MEETING

W. S. BROWN

W. S. Brown Imperial Treasurer, Makes Visit to Inspect Preparations

[Special Star-Bulletin Correspondence]

DALLAS, Texas, Nov. 14.—W. S. Brown of Pittsburgh, Pa., Imperial Treasurer of the Ancient and Arabic Order of the Mystic Shrine, a visitor in Dallas Monday and Tuesday, Nov. 12 and 13, in company with Imperial Potentate William J. Cunningham of Baltimore, Md., for the purpose of ascertaining Dallas's ability to properly care for the Imperial Council meeting in May next, gave out the statement in which he expressed himself highly pleased with the results of his visit and as being confident that the facilities of this city were ample in every way to care for every visitor. He was especially pleased with the results of a campaign conducted by the Chamber of Commerce in which approximately \$55,000 had been subscribed to the Shrine entertainment fund.

"Dallas's ability to handle conventions of the largest kind is known the country over," said Mr. Brown, "but I must say I was astonished at the metropolitan city I found upon my arrival. I like the spirit manifested by your business men as evidenced by the success of the Chamber of Commerce subscription campaign. It is gratifying to know that your citizenship appreciates the importance of the Order of the Shrine and of the high standing of its membership. Plans for the entertainment of the Imperial Council gathering should be laid months ahead and the fact that Dallas is doing this is highly commendable. One feature that especially impresses me is the splendid hotel facilities of Dallas. In fact in this respect Dallas offers better facilities for handling gatherings than many other cities in the country which have convention prominence and the hospitality of Dallas and old Hella is well known to every Shriner in attendance here in 1888."

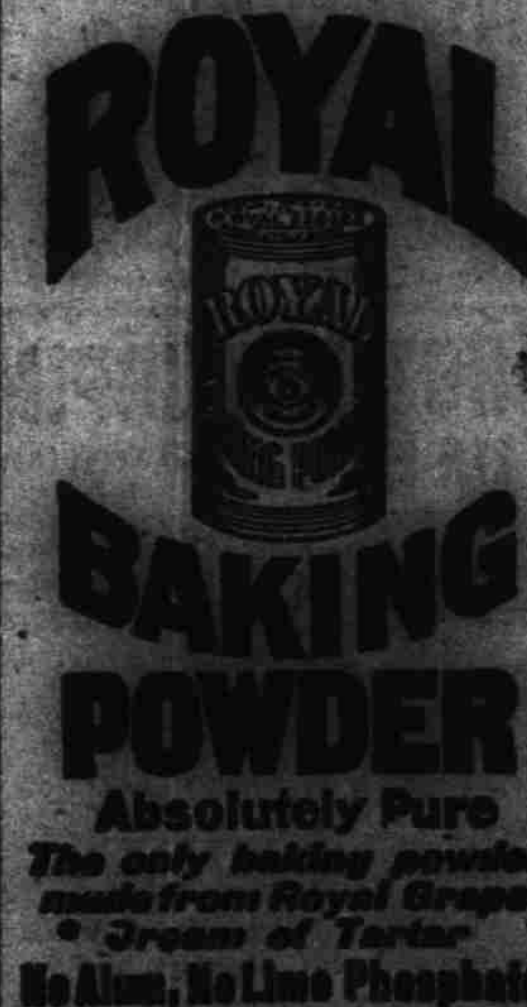

Mr. Brown was convinced that the plan to give the Shriners an opportunity of visiting Galveston, Houston, San Antonio and other cities of the State through the medium of special side trips, immediately following the close of the convention, would be especially popular. This matter is now up with the railroads and definite information will be given out at an early date. The plan is to have four or five special trains leave Dallas at the same hour over different railroad lines, the itinerary to include the principal cities and sections of the State. In this way visitors will have an opportunity of visiting Galveston on the Gulf of Mexico, San Antonio, famous in Texas history and the home of the Alamo, Austin the capital of Texas, and many other places of

prominence or historic interest. It is suggested that the trip last three or four days the special trains to return to Dallas at the same time, when arrangements will be made for prompt railroad connections for visitors returning to their respective homes. Mr. Brown advised that this be given wide publicity before the Shriners begin arranging their itineraries.

B. W. Powell of Boston, Imperial Recorded and Lon B. Winsor of Reed City, Mich., Past Imperial Potentate, were also members of Imperial Potentate Cunningham's party. Mr. Winsor was Imperial Potentate in 1901 and was a visitor in Dallas in 1898. He came through Dallas enroute to Honolulu, the year the Imperial Council was held in that city. "I have seen the development of Dallas from a population of 35,000 in 1898 to a population of 115,000 in 1912," said Mr. Winsor. "Dallas surprised the Shrine world in 1898 and will give it another surprise in 1913. Dallas will make good next year and entertain the Shriners in a way that they will long remember."

### ENGLAND'S COMMERCE WITH AUSTRALIA

The most striking feature of the Australian import trade, as disclosed in the report for 1911, issued yesterday.

day, is the increasing extent to which foreign countries are getting their products into that colony.

In 1906 the United Kingdom's imports were 52.6 per cent of the total; last year there were only 49.8 per cent. Some 20 per cent of the imports are goods not produced in this country, and if these are eliminated, the United Kingdom's proportion has fallen from 63.2 per cent to 51.5 per cent. It is a remarkable fact that some states use a large amount of British goods, while others import a very small percentage of the same British articles, relying on foreign products.

Although the total imports of machinery, etc., rose from 12,074,531 pounds in 1910 to 14,199,114 pounds in 1911, the proportion of United Kingdom goods to the total has decreased from about 65 per cent to about 60 per cent. This may be partly due to the shipping strike. Victoria is the black sheep, taking only 48 per cent in 1911, against 59 per cent in 1910. Agricultural machinery is our weakest point. The United States had 35.5 per cent of the trade and Canada 35 per cent, against our 14.1 per cent. Even Sweden has 77,517 pounds of the machinery, as compared with our \$104,040. It is stated that the British makers neglect to cater for Australian requirements. The United States beat us in mining machinery and Germany in iron and steel wire.

Many British hardware manufacturers will not entrust their agencies to Australian firms because they fear to jeopardize their position with London commission or export houses. These Australian firms accordingly get agencies from American makers.

In textiles we are making headway, but in other articles of apparel Britain has dropped from 61.4 per cent in 1908 to 53.5 per cent in 1911. —London Daily News.
